

Nutritional Information Booklet

Introduction

This guidance document has been prepared by Alshaya Group to provide general nutritional information about the food products that are served in its restaurants in the Kingdom of Saudi Arabia.

In this booklet you will find information about calories, fats, cholesterol, sugars, fiber, protein and sodium in the foods and beverages we serve.

This nutritional information is derived from a number of sources:

- 1. Nutritional values provided by the franchisors.** Alshaya is a franchise operator who partners with international brand owners to bring their brands to local markets. As part of our goal of authentically replicating each brand, we source ingredients and prepare meals based on our partners' specifications – we use their nutritional values for imported products.
- 2. Official sources.** This includes the Food & Drug Administration (FDA) in the United States of America and the Food Standards Agency (FSA) in the United Kingdom.
- 3. Analysis of products through specialist software.** We use internationally certified software to calculate the nutritional information for recipe items that we serve. We draw from over 280,000 foods listed in major nutritional databases following the standards approved by the FDA, the EU and Food Standards Australia New Zealand (FSANZ). This allows us to reach results that are stated in this document.
- 4. Laboratory Analysis.** Results of tests carried out in food testing laboratories in the Kingdom of Saudi Arabia in compliance with the standards set by the Saudi Food & Drug Authority (SFDA).

The nutritional information we are offering is given as general guidance for our customers. We have made every effort to be accurate but preparation methods, customer preferences and differences in locally sourced ingredients available in the local markets we operate in may all affect the nutritional content of the food we serve.

As a store operating manual, with information that constantly changes, this document is not intended for general distribution but is available for view in the restaurant on request.

CONFIDENTIALITY:

Information regarding Foods, Beverages & Nutritional information provided in this document is the sole property of Alshaya Group and its brand partners. As such, this document and the information contained are protected by copyright infringement laws.
